Math 376  
Summer 2008  
Homework Week # 2  
June 9th - 12th

---

**Directions**

Each assignment must have your full name, Math 376, and assignment number. Homework papers missing any of this information will not be graded. Homework is due on the due date at the beginning of class.

You must write down the entire problem from your book (even if it is a word problem) and show **all** of the necessary work. If there is a graph that goes along with the problem, draw it on your paper (use a straightedge). Do not turn in a paper full of answers only, it will not be graded. I can't help you if I can't see your work!

HW #5

Section 1.7 #1-12, 15-48 (do only multiples of 3), 49, 50, 52, 60, 72

Section 2.1 #1-12, 34-52 (evens), 53, 66-72 (evens), 85-88

Due on Tuesday June 10th
