

Fall 2006 Final Exam Schedule

To determine the day and time of a final exam:

1. Locate, in the white squares, the starting time or the closest starting time and days of the week that the class meets. Classes starting within or on the first half hour go with the preceding hour. Classes starting after the half hour go with the next hour (example: for a MW 8:30 a.m. class find MW 8:00 a.m.).
2. Trace up from the selected white square to find the day of the final.
3. Trace to the left from the selected white square to find the time of the final.
4. Contact your instructor if you have any questions on the day and time.
